DIRECTIONS FOR USE

All the **Arkwrights** range can be fed dry, or moistened to the consistency that your dog prefers. When feeding for the first time it is suggested that you introduce the product gradually over a few days until it replaces all other dog food. Individual dog's requirements vary and may differ from the indications below. Always feed to condition, adjusting the amount fed to meet the dog's needs, dependent upon circumstances and to maintain the desired body weight and shape.

Always ensure that fresh drinking water is readily available at all times. When not in use fold down top of pack and store in a cool dry place.
