When to use:

Dr. John Platinum can be fed dry, or moistened to the consistency that your dog prefers. When feeding for the first time it is suggested that you introduce the product gradually over a few days until it replaces all other dog food. Individual dog's requirements vary and may differ from the indications below.

Always feed to condition, adjusting the amount fed to meet the dog's needs, dependent upon circumstances and to maintain the desired body weight. When not in use, store in a cool dry place and fold down top once opened. Always ensure that fresh drinking water is readily available at all times.
